Henry Margu

Henry Margu

William Margu standing in front of his West Philly millinery shop in 1950. The beginnings of the company he would soon form with his son Henry.

Trend-setting styles, cutting-edge colorations, incomparable quality and relentless dedication to our customers have secured Henry Margu's position as a leader of the "alternative" hair industry.

Henry Margu circa 1951 around the time he was making preparations to launch the business.

Since Henry Margu first came on the scene in Philadelphia in 1951, family ownership has developed the company into one of the most well respected international brands of wigs and hair fashions. From a humble beginning in the store front millinery shop of the family house, the perseverance and dedication of the Margu family has made us the oldest and most experienced wig manufacturer in the US. Over these many years, innovative ideas have helped us create some of the most intriguing styles and unique colors in the industry as well as crafting our reputation as a trendsetter. The design staff at Henry Margu has not only focused on developing exquisite fashions but also on achieving the highest quality standards for our products. While Henry Margu continues to grow, our core values and strong family culture have not changed.

Our enduring partnerships with thousands of retailers is the result of our excellent customer service and knowledgeable sales staff which has enabled us to serve countless women over the years.

With 67 years of history, many milestones have been recognized at Henry Margu with many more still to come. Most importantly, the driving force of our efforts is for one purpose ... the satisfaction of our customers!

In today's world, when a woman's hair looks good, she feels good. Henry Margu is helping women exude beauty and confidence with a countless variety of fashion forward and elegant styles available in a wide range of our exclusive salon inspired colors.

The superior craftsmanship of Henry Margu wigs utilizes sophisticated techniques including specialized fiber processing and blending methods making our styles more manageable and natural looking. Our design team is constantly working to continually create lighter weight wigs with exceptional comfort for endless hours of wearing pleasure.

The beautiful colorations developed by Henry Margu add a touch of realism to any style. Using the most up-to-date coloring trends, the highlighting is designed to accentuate each individual style creating the most natural appearance for every wig.

Henry Margu is creating freedom of choice by enabling every woman to easily achieve any hairstyle and to change her appearance at a moment's notice to look her absolute best.

Browse the following pages and see for yourself why the difference is beautiful™ with Henry Margu wigs.

Wig Care Products

Cleanse, Finish, Revitalize & Shape are specifically formulated to enhance and prolong the life of our exceptional wigs and hairpieces.

Henry Margu wig care products are available in cases of 12 eight ounce bottles.

Comfort Cap

Mesh wig liner designed to keep the wearer cool and comfortable while preventing movement and slipping for a more secure fit.

Available in Black, Beige & Grey and packaged a dozen per color.

Wig Stands

Folding wig stands are ideal for storing and/or drying wigs.
Made of sturdy plastic or metal, these convenient stands are easy to assemble and lay flat for traveling ease.

Cap Construction

Traditional
Traditional cap construction features a fine net material in the top area with an open cap in the back. Weftings attached to stretch elastic lace make the open back creating better ventilation to keep the head cooler. A Traditional cap or a wig utilizing components of this type of cap construction is often referred to as a "machine-made" cap.

Open Cap/Featherlight
Open cap is commonly referred to as a "capless" wig due to the lack of net material used in the top as on a Traditional cap and as a result making the wig better ventilated throughout. The entire cap is produced with weftings attached to thin stretch elastic lace. Our exclusive ultra thin weftings used in the Featherlight cap create super lightweight wigs that are exceptionally cool and comfortable to wear.

Lace Front
A lace front wig has a hairline made of a fine lace mesh in which each hair is individually hand knotted. The lace varies in width from ¼ to 1½ inches. The lace typically extends across the entire front hairline but on occasion may extend from ear to ear. The benefit of a lace front wig is an amazingly realistic hairline that appears as if the hair is growing directly out of the scalp and allows the fiber in front to be styled off the face in any direction. The neutral color of the lace mesh takes on the skin tone of the wearer making the hairline more natural looking and virtually invisible. A Lace Front can be utilized on wigs of any type cap construction.

Hand Knotted
A Hand-Knotted wig is also referred to as a Hand-Tied wig. Hand-Tied wigs are made with a soft stretch lace base and 100% of the fiber is individually hand knotted onto the lace base. This type of cap is lightweight and exceptionally comfortable as the lace feels soft against the head. Hand-Tied wigs are produced with a Mono Top making them extremely natural looking as well and making this type of wig the most luxurious available.

Monofilament Top
Monofilament (Mono) is an extremely sheer mesh used to make a transparent base that creates a realistic looking scalp area and is then hand-knotted with individual fibers to simulate the appearance of natural hair growth. The fiber in a Monofilament Top (Mono Top) allows for multidirectional styling and parting the hair on the left, right or center creating amazing styling versatility and resulting in an extremely natural looking appearance. A Mono Top feels smoother against the scalp than a Traditional or Open Cap and more comfortable as a result. Often a Mono Top will have a polyurethane strip in the front of the mono area to help create a more secure fit.

Monofilament Top with Lace Front
Mono Top with Lace Front wigs are produced the same as a Mono Top wig but utilizing a Lace Front as well to create the most natural front hairline in conjunction with the realistic characteristics of a Mono Top. This allows for amazing off the face styling versatility as well as the flexibility to part hair on the left or right or in the center to achieve multiple styling variations. These wigs offer the most natural and realistic appearance due to the combination of the Mono and Lace Front.

Monofilament Part
A Monofilament Part (Mono Part) cap contains a wide Mono Part area on a machine-made cap and allows the wearer to style a conventional part or a more fashionable zigzag part for the most realistic appearance.

Monofilament Crown
A Monofilament Crown (Mono Crown) cap contains a Mono area in the top area of a machine-made cap. This allows for the fiber in this area to have a more natural and realistic appearance and is often used on shorter wig styles in the crown or in the center area of a style that is flatter and with less volume in the top.
